Dear Mr. Wesberg —

I am very interested in obtaining your book Photographic Whitewash, Frame-up + Cover up. My family saw you on Black Journal the other evening and ever since then I have been trying to find your books. I can't find them anywhere! One book store gave me this address and said that they could be obtained through you.

I would have gladly sent down a check covering

the price of these books, but I haven't any idea of the prices. If you would be so kind as to possibly pass on some information to me on how I can obtain your books, I would be very grateful.

We are also grateful for the work you are doing through those books. Although they are painful, the questions must be answered, and Although the losses will never be lessened we must always strive for some small semblance of Truth.

Thank you.
